DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "26,27,28,2946,49,51" are not in the drawings. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: "30" is not in the spec. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement

Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claim 7 is objected to because of the following informalities:

Claim 1, line 8, the limitation “sheath terminal” lacks antecedent basis.

Claim 5, line 2, the limitation “cable terminal” lacks antecedent basis.

Claim 6, line 3, , the limitation “the bell” lacks antecedent basis.

Claim 6, line 9, the phrase “the terminal” should be specified if it’s the cable or sheath terminal (also present in claim 7, lines 2, 6, and 7).

Claim 7, lines 3, 4, and 5, the word “picks” appears to be a typo and should be changed to “peaks”.

Examiner note: The application appears to be a direct translation and is replete with grammatical errors and the claims should be amended to correct grammatical errors.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3618

5. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 8, the limitation "sheath terminal" lacks antecedent basis.

Claim 5, line 2, the limitation "cable terminal" lacks antecedent basis.

Claim 6, line 3, , the limitation "the bell" lacks antecedent basis.

Claim 6, line 9, the phrase "the terminal" should be specified if it's the cable or sheath terminal (also present in claim 7, lines 2, 6, and 7).

Allowable Subject Matter

6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

7. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. Claims 2-6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. The following is an examiner's statement of reasons for allowance: In claim 1, the recitation of a latching member including a cable, lever, handle, and cylindrical locking member for rotating relative to a spear which in turn releases the latch, in combination with the rest of the recited structure defines over the prior art. The prior art does not

appear to show a cable release by means of a rotating action on lever or locking member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
